

GA TSA extends congratulations to Fannin County High School Senior, John Moler. John has been accepted into The Massachusetts Institute of Technology, and he plans to pursue a degree in an engineering related field. The 2020 acceptance rate to MIT was less than 7% of all applicants.

John completed the Engineering Pathway at FCHS, and he has served as the Technology Student Association President for the school year 2020-2021. John has been an outstanding member of TSA this year, finishing in the top 10 in the State of Georgia in four technology based competitions at the 2021 TSA State Conference. He will be representing the State of Georgia at the National TSA Conference in June in CAD Engineering. "I am really proud of John's accomplishments, and I am looking forward to the great things he will pursue in his future. To the best of my knowledge, John will be the first FCHS graduate to enroll at MIT." Bubba Gibbs, Engineering Teacher and TSA Advisor, Fannin County High School.

We're proud of you John. This is truly exceptional!!
